

The Yacht 2021 collection emulates the raw splendor of naturally-occurring patterns and colors through eleven designs, inspired by the lucid magnificence of pure seascapes and the effects of climate change on aquatic environments around the world.

As atmospheric dynamics shift, oceans undergo a transition from a world dominated by massive continental ice sheets to one where glaciers and polar ice are reduced in alpine regions. From the ominous beauty of snow-capped glaciers to the inviting warmth of a pristine seaside retreat, each design is an artistic representation of a majestic aquatic setting, presented in the finest materials including Silk and New Zealand Wool.

A three-dimensional sculpting technique using a natural, soft hand further enhances the artistry of selected designs in this collection.

Dimensions: L170 x W210 x H0.9 cm

Primary Material: Wool

Primary Color: Blue

Customization: This product is not customizable.
