

Voltra Lighting was initiated to create lighting atmospheres that could be conveniently controlled and adapted.

Warm light is diffused from the core of each of these captivating lamps through a shade composed of 2 veils of hand-formed borosilicate glass, mounted on a plated metal stem and base.

Individual or group charging options are available. Each Voltra lamp comes supplied with a proprietary Horizon Solo wireless charging pad that includes a cable adapter suitable for EU, UK and US.

Dimensions: L8 x W8 x H21.5 cm

Primary Material: Steel
