

The chair has always been a prevalent symbol in Freeman Lau's works. In 2014, he created the work 'Symbiosis' using chairs of different heights as leaves for a tree. The chairs are not only a symbol for human beings, but also for society, and Earth as a whole. We should recognize that we are in symbiosis with nature and that protecting the Earth's environment is one of the world's most crucial issues today.

Flaunting a retro-futuristic design, DBA Speakers are designed using the revolutionary Resonance Disc that delivers resonance waves and direct waves simultaneously to enhance an instrumental audio experience.

The speaker has an open sonic design and supports advanced wireless pairing. Each speaker is handcrafted and individually tuned.

Features:

- Patent-pending Metallic Resonant Disc
- 3" full-range 4 in conical sub-woofer
- Advanced wireless HD Aptx BT pairing
- Solid 45 watts RMS
- 3.5mm AUX input
- RCA sub-woofer out
- Mono or Stereo (Pair)

Dimensions: L60 x W60 x H110 cm

Primary Material: Aluminum
