

Hula is inspired by the shape and movement of Hawaiian dancers' skirts. The star pattern on the seat is a nod to the traditional Thai sticky rice basket and is made of 100% recycled PE plastic. The rattan structure is covered with polyethylene strips, woven the same way as making a palm leaf roof and finished with hand-curved recycled plastic strips.

Dimensions: L42 x W42 x H45 cm

**Primary Material:** Rattan

**Customization:** This product is not customizable.
