

Bamba is an ode to bamboo, one of the most versatile plants. Gathered in strength, its organic nature shines through the black color, honoring the materiality of the tree. The top portion is created using the same traditional wall-making technique learnt from the Karen Tribe where the bamboo is crushed to the point of submission into a flat surface. Decorated with copper nail details.

Dimensions: L42 x W42 x H55 cm

 KIT-TA-KHON

BAMBA (M)

Primary Material: Bamboo
