

Sun Glazed SPF30 Sunscreen Oil is a lightweight SPF30 glow oil that gives an enviable, sun-kissed glaze. It is quick-drying, moisturizing, and accentuates your body with a subtle shimmer.

This is a non-greasy broad-spectrum SPF30 body oil that's fast-absorbing, hydrating, and nourishing on the skin. It looks like liquid gold and dries clear, providing an instant glaze and radiance powered by sustainably sourced mica.

The oil leaves skin with a glow possible due to squalane, jojoba seed oil, and Vitamin E. It has a delicious summer fragrance with hints of bergamot, citrus peel, and juniper berry.

Dimensions: L6.096 x W15.951 x H2.3 cm
