

The Totem art print series pays homage to the art of stacking, hanging, and strapping objects together as a space-saving technique. "It's all about balance" is inspired by the last of the iconic wholesale and neighborhood homeware shops of Hong Kong where you can find everything you are looking for and what you did not know you needed. These treasure troves are typically packed from floor to ceiling with household goods from buckets, to stools, and everything in between.

Dimensions:
