

Be it to have a nice meal on the balcony or just a family night around the bonfire in the garden, the only things that may bother you are small pests - flies, ticks, or mosquitoes.

This Nalika candle will purify your living spaces, as it fills them with the fragrance of peppermint and citronella. Armed naturally with pest-repellent qualities, Nalika works perfectly both Indoors and outdoors.

This citronella-based multi-wick soy wax candle is an invaluable addition one should always stock in any home. Citronella oil is known as a natural mosquito repellent and is often used in active family homes with children. This oil will not kill insects, but its strong scent helps to keep them at bay.
